- Dear ADVERTISER: I read this paragraph in the Granger of last week: Wm Daily said at Nemaha City that he opposed the South because it was an

agricultural country. That is a malicious and idiotic lie. One, only however, of the ten thousand falsehoods sent out amongst the readers of that most unprincipled and unscrupulous sheet during this campaign. Why should Mr. Daily, or any other sensible man, utter such nonsense? He never did. Mr. Daily opposes the South, or rather the Southern style of running elections for precisely the same reason that Mr. Broady loves it:

viz: Because it is solid Democratic and Republicans are not allowed a "free vote and fair count" in that section. Mr. Broady rejoices to-day over the abominations that give 138 electoral votes to Hancock, as promised him by Wade Hampton. Mr. Daily deprecates the condition of affairs which compels the Democracy to be a purely sectional party. But I will not dilate. The occasion doesn't need it. The object is too small. But I do think the little g. e, of school organ and gold pen infamy can wear the belt for the number of contemptible, petty, impotent little lies
